

Christian Author Worksheet Directions

1. Write Your Book
2. Build Your Website
3. Write Your Blog Posts
4. Build Your Audience
5. Sell Your Book

Do All the Above Before You Launch Your Book!

Here's How.

1. Pick a subject matter or title for your book.
2. Choose 10 major topics for your subject matter.
These are your chapter topics.
3. For each chapter topic, choose 10 micro-topics.

These create the ingredients for your chapter. You now

have 10 chapter topics x 10 micro-topics = 100 micro-topics.

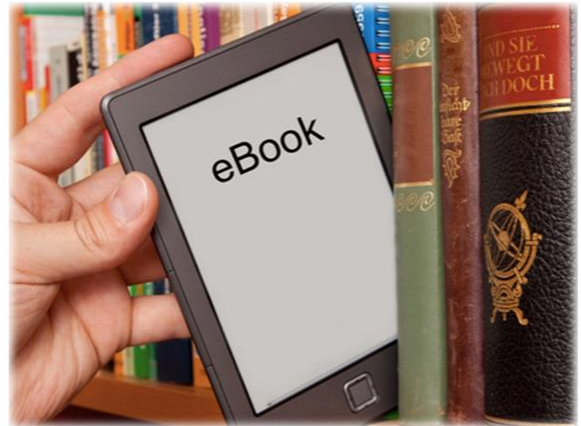

4. For each micro-topic, create a statement. These are your section titles within your chapter and also the next 100 blog posts you will write.

5. Turn each statement into a question. Do some keyword research to help determine the questions people are already asking.

6. Create 3 answers for each question. These are the questions you will answer in your blog posts. Do your research and write your blog.

Create Ebooks as your giveaway or to sell.

1. Focus on one major topic and write your 10 blog posts for that major topic. Write at least one blog post/week.
2. In 10 weeks (or sooner), you will have enough information to create an Ebook as a giveaway on your site or to sell.

Build a Following While You Write Your Book.

1. Build, or [have us build you](#), a website - a landing page and a contact page.
2. Connect your social media pages and begin posting your blog posts (above), etc. to begin building an audience now for your upcoming book.
3. Create your Ebooks as you complete each chapter.

When you are complete your 100 blog posts, flesh out each post and you'll have your book ready to edit and publish ([talk to us about that, too](#), if you don't want to do it yourself).

We are here to help at any point in the process! You can find us here:
